

ALLEGAN COUNTY

Broadband Survey

Thank you for participating in our Broadband Survey. The goal of our broadband program is to insure that all residents have access to internet with a minimum speed of 25M down/3M up and a preferred speed of 100M down/20M up. We are aware that many residents and businesses do not have internet that is reliable and fast enough for their needs.

We ask you to make EVERY effort to take the survey online. This paper survey is a last resort.

You can take the survey on your phone, by scanning this QR code with your phone camera:
