

Gun Lake Tribe Environmental Department

PUBLIC E-WASTE RECYCLING

SEPTEMBER 5, 2018 • 10:00 a.m. – 1:00 p.m.

**Gun Lake Government Campus – Public Works Parking Lot
2848 Mno Bmadzewen Dr. Shelbyville, MI 49344**

Join the Environmental Department for a **free electronic waste (e-waste) recycling!**

E-waste can often be refurbished or recycled and yet, it often ends up in a landfill. Old electronics often contain toxic substances such as lead, mercury, cadmium and chromium.

These toxins are then leaked into our soil and groundwater when disposed of in landfills. They may also contain other heavy metals and potentially toxic chemical flame retardants.

The Environmental Department works with Comprenew to dispose of unwanted and old electronics. Comprenew does not ship e-waste overseas and has a zero-landfill policy that requires that all recycled e-waste is recycled, refurbished or reused.

ACCEPTABLE ITEMS INCLUDE

Office and household electronics, cell phones, radios, microwaves, VCRs and TVs, computer laptops, monitors, keyboards and mice, printers, speakers and power cords. All computer hard drives are erased or destroyed by Comprenew.
